

## LED RETROFIT KITS

Our **commercial LED retrofit kits** can *replace existing Metal Halide or HPS bulbs*, the old housings will be re-used.

Here are some fixtures where the retrofit kits could be used, but not limited to ***Parking Lot and Street light fixtures, highbay fixtures, shoebox fixtures, wallpack fixtures, canopy fixtures*** and more!

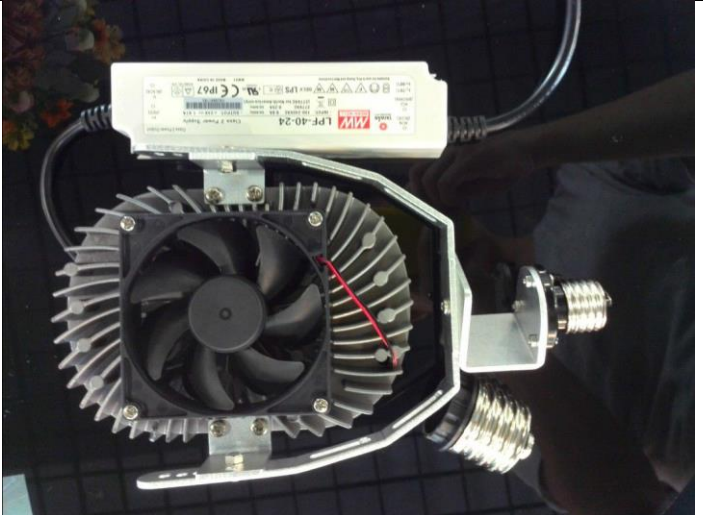

The diagram shows a central LED retrofit kit component, which is a small, cylindrical device with a lens and a mounting bracket. Arrows point from this central component to various types of light fixtures, including a square wallpack, a rectangular highbay, a cylindrical street light, a dome-shaped fixture, a shoebox fixture, and a canopy fixture. The text 'led retrofit kits' is written in blue to the right of the diagram.

**led retrofit kits**

- 1) MW Driver, Cree XTE Chips
- 2) Built in temperature control system
- 3) 40w-120w are available
- 4) 30/45/60/90/120 beam angle
- 5) LM79&LM80 report
- 6) 5 years warranty
