

# Emergency T8 Tube

2-ft, 4-ft

## Specifications

Color	4000K, 5000K
Wattage	9W, 18W
Length	2ft, 4ft
CRI	>80
Input Voltage	AC100-277V
Light Output	2ft: 945lm, 4ft:1890lm
LED Type	SMD2835
Power Factor	>0.92
Luminous Efficiency	>105lm/W
Emergency Time	90 minutes
Light Output When on Battery	3W, 427.9lm
Warranty	5-year

## Description

The Emergency T8 Tube comes with an integrated emergency battery. It can be used as a regular T8 lamp and an emergency tube. It has a test button and indicator lamps so that it is safe with fire protection standard. It has over-charging and over-discharging protection which ensure the life time of batteries (800 times charging and discharging). This Emergency T8 Tube is a cost-effective option for various emergency lighting applications such as office buildings, schools, hotels, apartment, corridors, and stairs. It is required to operate on a separate circuit.

## Features

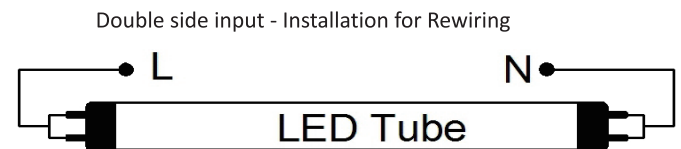

- 2-in-1 tube: regular T8 lighting and emergency lighting
- Built-in lithium batteries
- Test button and battery check indicator
- Easy to install and cost-effective
- 5-year warranty

## Product Compliance & Certifications:

- ETL

## Wiring Diagram

To turn on or off the Emergency T8, turn off the power first and within 3 seconds turn on the power.
